Full closure of eastbound US 10/WIS 441 on Roland Kampo Bridge begins Tuesday night in Winnebago County

Full closure needed to safely remove concrete parapet on bridge

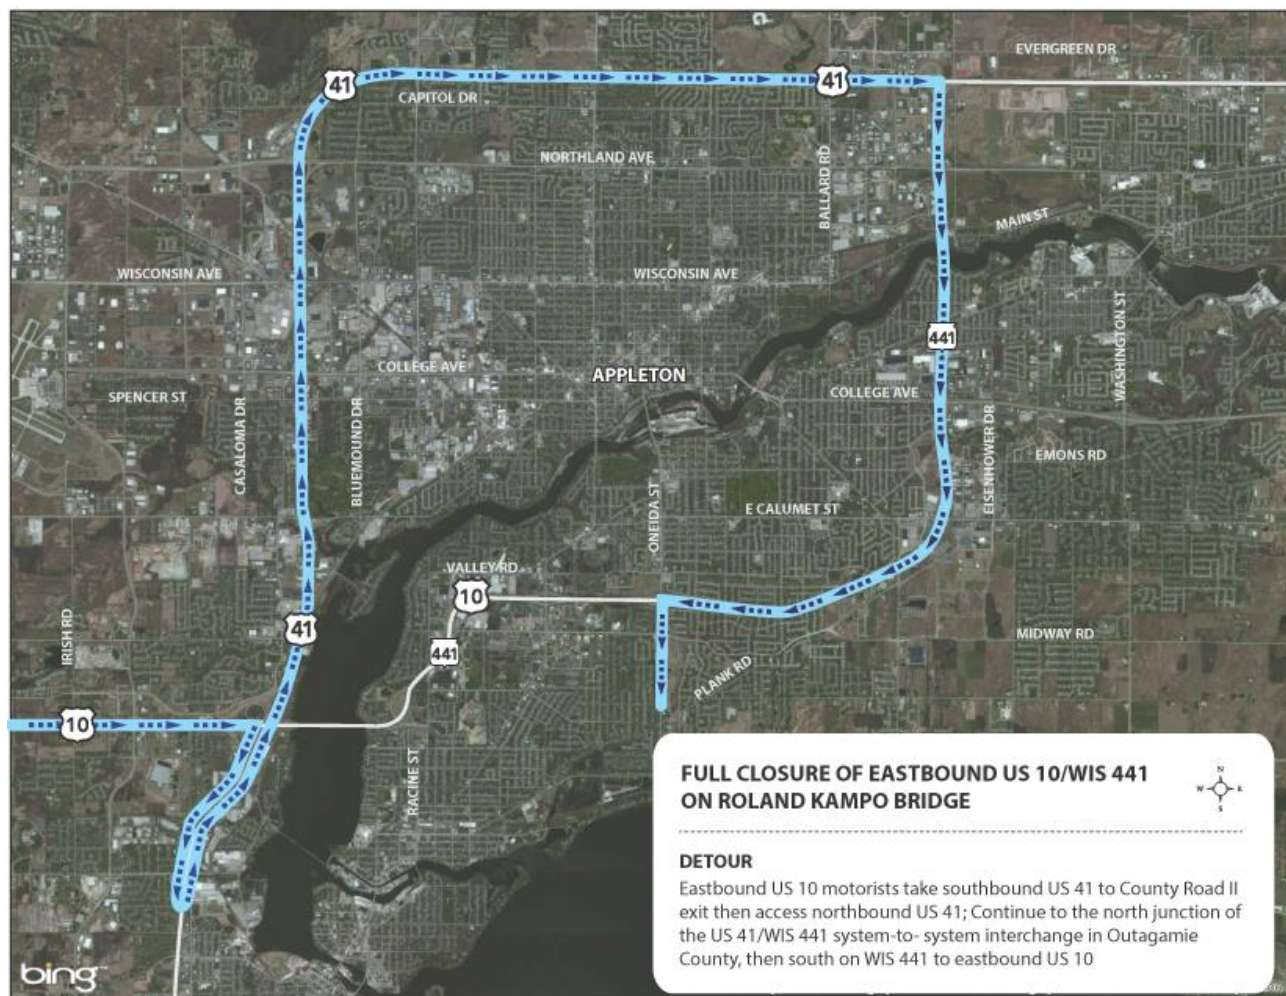

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing there will be nightly, full closures of eastbound lanes on the US 10/WIS 441 Roland Kampo Bridge beginning Tuesday, October 7 from 9 p.m. to 5:30 a.m. The full closure is expected to take place nightly through next week. The full closure is needed to safely remove the eastbound parapet for making a construction access lane to build a second, parallel bridge over Little Lake Butte des Morts.

Times and dates of the closure include:

- Tuesday, Oct. 7, Wednesday, Oct. 8 and Thursday, Oct. 9, 9 p.m. to 5:30 a.m.
- Friday, Oct. 10, 10 p.m. to 7 a.m.
- Saturday and Sunday, Oct. 11 and 12, no closure
- Monday, Oct. 13 through Thursday, Oct. 16, 9 p.m. to 5:30 a.m. (days tentative and subject to change)

“By closing the entire eastbound lanes, it provides a much safer working environment for construction crews,” said Will Dorsey, director, NE Region, WisDOT. “It will also help crews remove the parapet in a shorter time frame than previously expected. It’s a pretty noisy job removing the concrete, so having a full closure through next week will also shorten the time residents near the bridge have to listen to the noise.”

The parapet must be removed at night due to the proximity to traffic on the bridge. WisDOT will have electronic message boards and detour signs alerting motorists to the closure.

The official detour route is:

- Eastbound US 10 motorists take southbound US 41 to County Road II exit then access northbound US 41; Continue to the north junction of the US 41/WIS 441 system-to- system interchange in Outagamie County, then south on WIS 441 to eastbound US 10.

Additionally, westbound US 10/WIS 441 between County P/Racine Street and US 41 will have overnight single lane closures Monday through Thursday night from 7 p.m. to 5 a.m. and Friday 8 p.m. to 10 a.m. There are also impacts to ramps at the US 10/WIS 441 and US 41 interchange. Please see the US 441 Tri-County Expansion project weekly road closure report at www.us41wisconsin.gov/wis441 for a complete list of weekly closures each Friday and throughout the week for updates to the road closure report.

WisDOT asks drivers to remain alert and obey speed limits on the bridge at all times. Drivers should be aware of 11-foot wide lanes and narrow shoulders on eastbound and westbound bridge lanes over the next two years.

All lane restrictions and work operations are weather dependent and subject to change.
